

OCHLOCKONEE RIVER BASIN
2004 Water Year

02327415 LITTLE OCHLOCKONEE RIVER AT GA 111, NEAR MOULTRIE, GA

LOCATION.—Lat 31°07'02", long 83°58'42" referenced to North American Datum (NAD) of 1927, Colquitt County, Hydrologic Unit 03120002, at GA 111, 10.0 miles west of Moultrie.

DRAINAGE AREA.—44.8 square miles.

COOPERATION.—Georgia Department of Transportation.

PEAK-DISCHARGE RECORDS

PERIOD OF RECORD.—1981 to current year.

GAGE.—Crest-stage partial-record gage. Datum of gage is 218.65 feet above National Geodetic Vertical Datum (NGVD) of 1929.

REMARKS.—A crest-stage gage is a device which will register the peak stage occurring between inspections of the gage. A stage-discharge relation for each gage is developed from discharge measurements made by indirect measurements of peak flow or by current meter. The date of the maximum discharge is not always certain, but is usually determined by comparison with nearby continuous record stations, weather records, or local inquiry. Only the maximum discharge for each water year is given. Information of some lower floods may have been obtained, but is not published within. The years given in the period of record represent water years for which the annual maximum has been determined.

MAXIMUM FOR PERIOD OF RECORD.—

STAGE: 10.29 feet, March 9, 1998

DISCHARGE: 6,660 cfs, March 9, 1998

MAXIMUM FOR CURRENT YEAR.—

STAGE: 7.70 feet, June 29

DISCHARGE: 1,470 cfs, June 29
